GAZANIA RIGENS GIANT SERIES

The general purpose of this gazania is as a potted bedding plant or a patio plant.

Lommerse Breeding Selection and breeding of ornamental plants

Gazania Giant® Series

- Giant bright orange
- Giant deep yellow
- Giant yellow striped
- Giant red bronze
- Giant gold bronze
- Giant violet bicolor
- Giant white tricolor

Vigor and strong filled plant structure give this plant width development of 40 - 45 cm in diameter; in addition to that, this plant shows big, vividly colored flowers with an average diameter of 11 - 12 cm.

Continuous flowering during summer until autumn with flowers that stay open for a long time during daytime and summer evenings.

The plants are photosensitive and heat resistant.

Multiplying is done by striking cuttings of plants, the starting materials for the production plants are the elite plants.
